V1	19/06/2021	First issue
V1.1	09/07/2021	Amendment to <i>Storing Images</i> section regarding the duration of keeping images.
V1.2	28/09/2021	Amendment to <i>We will seek to keep children and young people safe by:</i> section regarding gaining written consent from parents or carers and verbal consent from child before capturing and using any image.
V2	10/05/2023	Annual review. No changes to content.
V3	09/05/2023	Annual review. Update to some named staff.

Introduction

This is an example of one of the documents organisations need to ensure safeguarding is at the heart of their activities.

The purpose and scope of this policy statement

Ridgewood High School works with children and families as part of its activities. This includes providing education to children aged 11-16.

The purpose of this policy statement is to:

- Protect children and young people who take part in Ridgewood High School's services, events and activities, specifically those where photographs and videos may be taken
- set out the overarching principles that guide our approach to photographs/videos being taken
- of children and young people during our events and activities
- to ensure that we operate in line with our values and within the law when creating, using and
- sharing images of children and young people

This policy statement applies to all staff, volunteers and other adults associated with Ridgewood High School.

Legal Framework

Legal framework

This policy has been drawn up on the basis of legislation, policy and guidance that seeks to protect children in England/Northern Ireland/Scotland/Wales [select the relevant nation]. Summaries of key legislation and guidance is available on:

- [online abuse learning.nspcc.org.uk/child-abuse-and-neglect/online-abuse](https://www.nspcc.org.uk/child-abuse-and-neglect/online-abuse)
- [child protection learning.nspcc.org.uk/child-protection-system](https://www.nspcc.org.uk/child-protection-system)

We believe that:

- Children and young people should never experience abuse of any kind
- We have a responsibility to promote the welfare of all children and young people and to take, share and use images of children safely.

We recognise that:

- sharing photographs and films of our activities can help us celebrate the successes and achievements of our children and young people, provide a record of our activities and raise awareness of our organisation
- the welfare of the children and young people taking part in our activities is paramount children, their parents and carers have a right to decide whether their images are taken and how these may be used, regardless of age, disability, gender reassignment, race, religion or belief, sex or sexual orientation

- consent to take images of children is only meaningful when children, their parents and carers understand how the images will be used and stored, and are fully aware of the potential risks associated with the use and distribution of these images
- there are potential risks associated with sharing images of children online.

More information about this is available from:

<http://learning.nspcc.org.uk/researchresources/briefings/photography-sharing-images-guidance>

We will seek to keep children and young people safe by:

- always asking for written consent from a child's parents or carers before taking and using a child's image
- always asking the child to verbally consent before capturing or using their image
- always explaining what images will be used for, how they will be stored and what potential risks are associated with sharing images of children. A letter from our Headteacher, Mrs Cope has been shared with parents and carers to this regard
- making it clear that if a child or their family withdraw consent for an image to be shared, it may not be possible to delete images that have already been shared or published
- making sure children, their parents and carers understand how images of children will be securely stored and for how long (including how we will control access to the images and their associated information)
- reducing the risk of images being copied and used inappropriately by:
 - only using images of children in appropriate clothing (including safety wear if necessary)
 - avoiding full face and body shots of children taking part in activities such as swimming where there may be a heightened risk of images being misused
- using images that positively reflect young people's involvement in the activity.

We will also develop a procedure for reporting the abuse or misuse of images of children as part of our child protection procedures. We will ensure everyone involved in our organisation knows the procedures to follow to keep children safe.

Photography and/or filming for personal use

When children themselves, parents, carers or spectators are taking photographs or filming at our events and the images are for personal use, we will publish guidance about image sharing in the event programmes and/or announce details of our photography policy before the start of the event. This includes:

- reminding parents, carers and children that they need to give consent for Ridgewood High School to take and use their images
- asking for photos taken during the event not to be shared on social media or asking people to gain permission from children, their parents and carers before sharing photographs and videos that include them
- recommending that people check the privacy settings of their social media account to understand who else will be able to view any images they share

- reminding children, parents and carers that they can talk to our Designated Safeguarding Lead (Mrs H Baldry) if they have any concerns about images being shared.
- we may ask parents and carers and students NOT to use personal photography or filming devices in certain circumstances.

Photography and/or filming for Ridgewood High School's use

We recognise that our group leaders may use photography and filming as an aid in activities such as Music or Drama. However, this should only be done with Ridgewood High School's permission and using our equipment.

Children, young people, parents and carers must also be made aware that photography and filming is part of the programme and give written consent.

If we hire a photographer for one of our events, we will seek to keep children and young people safe by:

- providing the photographer with a clear brief about appropriate content and behaviour ensuring the photographer wears identification at all times
- informing children, their parents and carers that a photographer will be asked to respect the consent that has already been provided by Ridgewood High School
- not allowing the photographer to have unsupervised access to children
- not allowing the photographer to carry out sessions outside the event or at a child's home
- reporting concerns regarding inappropriate or intrusive photography following our child protection procedures.

Photography and/or filming for wider use

If people such as local journalists, professional photographers (not hired by Ridgewood High School) or students wish to record one of our events and share the images professionally or in the wider world, they should seek permission in advance.

They should provide:

- the name and address of the person using the camera
- the names of children they wish to take images of (if possible)
- the reason for taking the images and/or what the images will be used for
- a signed declaration that the information provided is valid and that the images will only be used for the reasons given.

Ridgewood High School will verify these details and decide whether to grant permission for photographs/films to be taken. We will respect the consent that has already been provided by parents and carers, and also let the children know they are intended subjects of the images and their parents and inform the photographer of anyone who has not provided consent.

At the event we will inform children, parents and carers that an external photographer is present and ensure they are easily identifiable, for example by issuing them with a coloured identification badge. If Ridgewood High School is concerned that someone unknown to us is using their sessions for

photography or filming purposes, we will ask them to leave and (depending on the nature of the concerns) follow our child protection procedures.

Storing images

We will store photographs and videos of children securely, in accordance with our safeguarding policy and data protection law. We will keep hard copies of images in a locked drawer and electronic images in a protected folder with restricted access. Access with password protected. We will continue to store and use images/video until you tell us you would prefer us not to use images/videos, until your child has left Ridgewood High School. We will specifically request permission to store or use any images of a child after they have finished being educated at Ridgewood High School.

We will never store images of children on unencrypted portable equipment such as laptops, memory sticks and mobile phones.

Ridgewood High School does not permit staff and volunteers to using any personal equipment to take photos and recordings of children. Only cameras or devices belonging to the Ridgewood High School should be used.

Related policies and procedures

This policy statement should be read alongside our organisational policies and procedures, including:

- Child protection.
- Procedures for responding to concerns about a child or young person's wellbeing.
- Code of conduct for staff and volunteers.
- Online safety policy and procedures for responding to concerns about online abuse.

More information about what these policies and procedures should include is available from learning.nspcc.org.uk/safeguarding-child-protection
